Dubai, United Arab Emirates

 +971-56-760-3382 |  mohdbibo22@gmail.com

PROFILE

Computer Science student and hands-on full-stack builder who designs, ships, and runs production software end to end. Founder of Delivvo (a live SaaS) and builder of Cutroom (a desktop AI video editor), with experience across product, engineering, databases, payments, authentication, and deployment. Ensuring to take full advantage of AI and its capabilities while making sure everything is done under my control. That's how you build efficiently and confidently.

EDUCATION

University of Wollongong, Dubai

Bachelor of Computer Science (2023 – 2027)

EXPERIENCE

Delivvo.io - Founder (Startup)

2026 – Current

- Built and shipped a SaaS for freelancers to manage clients, projects, contracts, and invoices, live in production
- Integrated 9 global payment gateways with encrypted credential storage and per-client override
- Engineered a client portal that auto-generates payment links the moment a gateway is connected to an invoice
- Designed the full product and UI system in Next.js, Tailwind, and shadcn/ui as sole founder

Live Website: [Delivvo](#)

BMT Materials - Tech Lead

Jul 2026 – Current

- Sole technical owner: built and shipped the company website in Next.js, live in production on a custom domain
- Building a full-stack business application to move operations online, with database design and Google sign-in authentication
- Run the full deployment pipeline on Vercel, including custom domain and DNS configuration

Live Website: [BMT Materials](#)

MedA+ Academy - Website Lead

Jul 2026 – Current

- Complete build of the organization's website, with complete backend and security following all standards and requirements.
- Completely built full stack, with the database (Supabase) and domain (DNS Configuration) and more.
- Fully built authentication with Student, Instructor, & Administrator side. Fully functional, fully capable and up.

Live Website: [MedA+ Academy](#)

UI/UX Design Intern – Pitchmatter (Startup)

2025

- Designed wireframes and prototypes to improve usability and user flow
- Collaborated with developers to align visuals with product functionality

Freelance Consultant – Application Strategy & Digital Support

2024

- Introduced digital tools that assisted with operations and improved efficiency
- Produced actionable recommendations that boosted design and performance

PROJECTS

Cutroom – AI Video Editor (Electron, TypeScript, React)

2026

- *Built a local AI video editor for Windows that edits, transcribes, and captions entirely on-device*
- *Multi-language transcription and captions in Arabic and 90+ languages with right-to-left support, drivable by AI over MCP*
- *Auto-reframe, background removal, upscaling, and export to H.264, H.265, and AV1, shipped as a self-contained installer*

Live Application: [Cutroom](#)

Smart Weather Platform (Skyline Forecast) – Python, Streamlit

2026

- *Developed a real-time multi-city weather application with a clean, user-focused UI*
- *Implemented insights, scoring, recommendations, and a What to Wear feature based on live conditions*
- *Added interactive maps and export functionality*

Live Application: [Skyline Forecast](#) [GitHub Repo](#)

Smart File Organizer 1.0 – Python, Vercel

2026

- *Developed a file organizing platform with smart organizing, renaming, and deletion*
- *Clean, safe, and secure code with a well-designed informative website*

Live Application: [Smart File Organizer](#) [GitHub Repo](#)

COURSES & CERTIFICATIONS

- *Business Analysis & Process Management – Coursera, Aug 2024*
- *Code Generation and Optimization Using IBM Granite – IBM, Mar 2025*
- *The Fundamentals of Digital Marketing – Google, Feb 2025*
- *C++ Programming - From Beginner to Beyond – Udemy, Dec 2025*
- *Python 3 Programming – University of Michigan, Currently*

SKILLS

- **Technical Skills:** Full-stack web development (Next.js, React, TypeScript, Node.js), Tailwind and shadcn/ui, databases (PostgreSQL, Prisma, Supabase), authentication and payments (Google OAuth, Stripe and global gateways), Electron desktop apps, AI and agent integration (MCP), deployment on Vercel with custom domains and DNS
- **Soft Skills:** Technical leadership, critical thinking, teamwork, time management, adaptability

- **Languages: Fluent Arabic, Advanced English**
- **Tools & Methods: Git and GitHub, Google Workspace, Excel, Trello, task coordination, data tracking**
